At Twin County Regional Healthcare, our goal is to deliver the best healthcare available to the residents of the Twin County region, as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your support and encouragement, we continue our passionate pursuit of excellence.

Delivering quality healthcare close to home is the single most important contribution we make. But there are many other ways we make a positive impact on the communities we serve. Here are a few of the ways we are making a difference.

**Nearly $4.3 million in capital improvements**
In 2012, Twin County Regional Healthcare added digital mammography and a video endoscopy system. In fact, we invested $4,297,104 in our facilities last year which, in addition to the above, included technology replacement, information technology additions/updates, and important facility upkeep and maintenance.

**Contributing to our local tax base**
Last year, Twin County Regional Healthcare paid $404,101 in taxes which helped support our city, county and state. This included sales taxes as well as property taxes. These dollars help maintain local schools, fund the development of roads, recruit business and industry, and provide other similar services vital to support and sustain a thriving economy.

**Helping those in need**
Twin County Regional Healthcare is committed to ensuring the delivery of needed healthcare to all members of the community, regardless of ability to pay. Last year the cost to Twin County was more than $4 million to provide services for those without the ability to pay for their care.

**Adding new physicians**
During the past year, Twin County Regional Healthcare added 12 new physicians to our highly respected medical staff, including specialists in internal medicine, anesthesiology, cardiology and emergency medicine.

**One of our community’s major employers**
With an annual payroll of $25,488,121 and nearly 600 employees, Twin County is one of the largest employers in the region. This means that our staff and family members attend many of the same schools, shop at the same stores and volunteer their time and resources for the same organizations as you do.

We thank you for choosing us for your healthcare needs. With your support, we can continue making our community healthier.

Monetary totals reflect amounts accrued from April 1, 2012, when Twin County Regional Hospital became part of the Duke LifePoint Healthcare system.
