

# 2024 Lifepoint Health Nursing Impact Report

At Lifepoint Health, our mission is *making communities healthier*. At the core of our mission are our nurses—skilled, compassionate professionals who show up every day to deliver quality care close to home.

In 2024, our nurses made a measurable and lasting impact across our care teams, hospitals and communities. They are the heartbeat of our organization, driving quality outcomes, supporting patients and families, and strengthening the places we call home. The data highlighted in this report represent just a portion of the many ways our nurses have advanced patient care and furthered our mission this year. Their full impact extends far beyond the numbers.

## Our Nurses in 2024

Our care teams include

**12,000**
