About Duke LifePoint Healthcare

Duke LifePoint Healthcare is a joint venture of Duke University Health System and Lifepoint Health that was established in 2011 to bring high-quality healthcare services to community hospitals in North Carolina and the surrounding region, as well as regional referral centers across the nation.

Duke LifePoint hospitals uniquely benefit from Duke's patient safety and clinical quality expertise and Lifepoint's operational and financial resources and expertise. Innovation is at the core of our joint venture, as Duke LifePoint was among the first successful collaborations between academic medical centers and investor-owned healthcare systems.

We recognize the crucial role a thriving healthcare system plays in supporting the economic health and development of a community, and we are proud to share our contributions through this report.
