OUR PROMISE

Duke LifePoint Healthcare promises to engage with our patients and people, lead quality innovation and advance knowledge to improve health in the communities we serve.

Duke LifePoint Healthcare is a joint venture of Duke University Health System and Lifepoint Health that was established in 2011 to bring high-quality healthcare services to community hospitals in North Carolina and the surrounding region, as well as regional referral centers across the nation.

Duke LifePoint hospitals benefit from the combined strengths of Duke's expertise in patient safety and clinical quality and Lifepoint's operational and financial capabilities. Innovation is at the core of our joint venture, as Duke LifePoint was among the first successful collaborations between academic medical centers and investor-owned healthcare systems.

We recognize the crucial role a thriving healthcare system plays in supporting the economic health and development of a community, and we are proud to share our contributions through this report.
